

West-Lombok; Walk Pusuk

This nice walk can be made from Senggigi. A car brings you to the startingpoint near the summit of the Pusuk pass at around 800 meters. From here you have a beautiful view of Lombok's northcoast and the Gili-islands. The trail climbs steeply at first but once you've reached the tops after about an hour, the rest is going down gradually.

During the walk you have a fantastic panoramic view of Lombok's low-lying plain and the coast with its sweeping bays. If the weather is clear Gunung Agung on Bali is also visible.

Around lunchtime you are back in Senggigi.
